RELEVANT PROFESSIONAL EXPERIENCE

Vertafore

Software Engineer II | 05/2024 - Present

Software Engineer | 01/2023 - 05/2024

Site Reliability Engineer | 06/2022 - 01/2023

- Promoted from Site Reliability Engineer to Software Engineer to Software Engineer II in under two years.
- Automated the closure of expired and abandoned policies through a scheduled sentinel application, reducing weekly administrative overhead by 120+ minutes.
- Redesigned a high-volume client report as a scheduled automated task, reducing on-demand execution time from 30+ minutes to near-instant data retrieval.
- Standardized the production-to-test database migration process by creating step-by-step documentation, reducing setup time and configuration errors.
- Built enterprise insurance applications supporting thousands of monthly users across policy and reporting workflows.
- Investigated and resolved production issues affecting service performance and availability, helping maintain 99.9% platform uptime.

Witness Web Works

Cofounder, Web Developer | Freelance | 01/2022 - Present

- Designed and delivered custom websites for clients, translating feedback into polished, launch-ready implementations.
- Managed client communication and project delivery across freelance engagements, maintaining strong relationships through responsive collaboration.

SOFTWARE PROJECTS

[Advanced Mastery Workbook](#) | *Life coach course module - Freelance Deliverable*

- Built and launched a subscription-based coaching course module generating over **\$2.5K in monthly recurring revenue from 10+ active subscribers**.

[Pristine Management](#) | *HOA management website - Freelance Deliverable*

- Designed and developed a full-stack marketing website for an HOA management company using Next.js and Resend.
- Improved lead capture and communication workflows through responsive design and streamlined contact flows.

[Link Shortening Service](#) | *Full-stack URL shortening service - Personal Project*

- Built a full-stack URL shortening platform with OAuth authentication, click tracking, and real-time analytics using Firebase.
- Focused on clean user flows, reliable analytics, and scalable link management.

[Community Tier List](#) | *SaaS passion project - Personal Project*

- Built an interactive platform centered on community tier-list participation and creator engagement.
